ACTION MEMORANDUM
CONFIDENTIAL
DECL: OADR

S/S 5/14

TO: P - Mr. Tarnoff

FROM: IO - Douglas J. Bennett

SUBJECT: Analysis of Peacekeeping Options in Rwanda

ISSUE(S) FOR DECISION

Whether to approval transmittal of the attached Grossman-Itch memorandum forwarding to the NSC for the Deputies Committee an analysis of peacekeeping options in Rwanda against the criteria of PDD-25.

ESSENTIAL FACTORS

PDD-25 requires Deputies Committee-level approval of all U.S. votes in the United Nations Security Council to establish new peacekeeping operations. The Peacekeeping Core Group is to provide an analysis of the options to aid the Deputies in their decision.

The proposed expansion of the size and mandate of the United Nations Assistance Mission in Rwanda (UNAMIR) changes the operation significantly enough to qualify in effect as a "new" mission. The attached discussion paper analyzes three proposals now before the Security Council in relation to the decision factors set out in PDD-25.

RECOMMENDATION

That you approve transmittal of the attached discussion paper.
